Leica 3D Disto

Tablet & Wi-Fi requirements

- **Operating systems**
  Windows 7 or higher.
  Not supported Windows 10 S, RT and modified editions.

- **Processor**
  minimum i3, i5 or i7

  Important: ARM 64 based processors like Microsoft® SQ1™
  (built in **Microsoft® Surface Pro X**) are **not compatible** with the
  Leica 3D Disto software for Windows®

- **Screen and resolution**
  At least 1000 x 680 pixels, desktop or touch screen

- **Wi-Fi and data transfer**
  3D Disto with serial number starting with 175 or 177 need an external USB -
  Wi-Fi stick.
  We recommend **TP-Link TL-WN823N.**

  3D Disto with serial number starting with 176 can be connected directly to the
  tablet integrated Wi-Fi.

  A USB port "Type A" is the most comfortable for the Wi-Fi stick
  and for data transfer.

  Please use an adapter for tablets with mini-USB or
  micro-USB port.
  Important: USB port and adapter need to have
  "on-the-go" functionality (OTG)!

- **Recommended Windows tablet:**
  Microsoft Surface Pro 6 – i5, 12", Windows 10 Home or Professional

- when it has to be **right**
